INNER PLUS

- **Inner Plus** is a modern tool developed to improve efficiency of internal process of small, medium or large corporations. The equipment is a data collector that allows an efficient employee access and attendance control. If your are looking for convenience, easiness and viable cost this is your best choice.

Inner Plus was developed for companies that are looking forward automation with a better cost and benefit relation. Inner Plus is a data log and access control equipment that confirms the identity of the user by performing card verification. The unit is supplied with card reader with options for smart card, proximity card, barcode or magnetic card. Every time a user clocks in or out the operation is logged in non-volatile memory and can be downloaded to a PC. LCD messages and sound signals guide all user operations.

Inner Plus can activate sirens, turnstiles, electric locks, gates or other devices. You can configure the complete operation using our software Inner's Manager for windows.

❖ Employees register

❖ Access control

❖ Applications

The multifunctionality of Inners Plus enables installation in several different environments, mainly on places that need efficient control of access and assistance.

- Time & attendance
- Job cost
- Access control

❖ Technical Specification

- LCD display with 2 lines and 16 columns
- Numeric and functions keypad
- Can store up to 16,000 registers
- 2 relays for sirens, doors, turnstiles, gates, barriers etc
- An integrated UPS keeps the equipment in operation for up to 10 hours
- Non-volatile memory keeps the collected data for one year, in case of power failure
- **Interface**
 - RS 232 - for distances up to 15 meters
 - RS 485 - for distances up to 1500 meters
 - TCP/IP (optional)
- It allows up to 32 devices to be connected in the same computer serial port
- Operational mode: online or offline
- Enclosure in steel and highly resistant ABS plastic
- **Dimensions**
 - Width: 191 mm
 - Height: 220 mm
 - Depth: 72 mm
- Power supply: 127 V or 220 V - 60 Hz
- Consumption: 5W
